

Interested in your health at a molecular level?

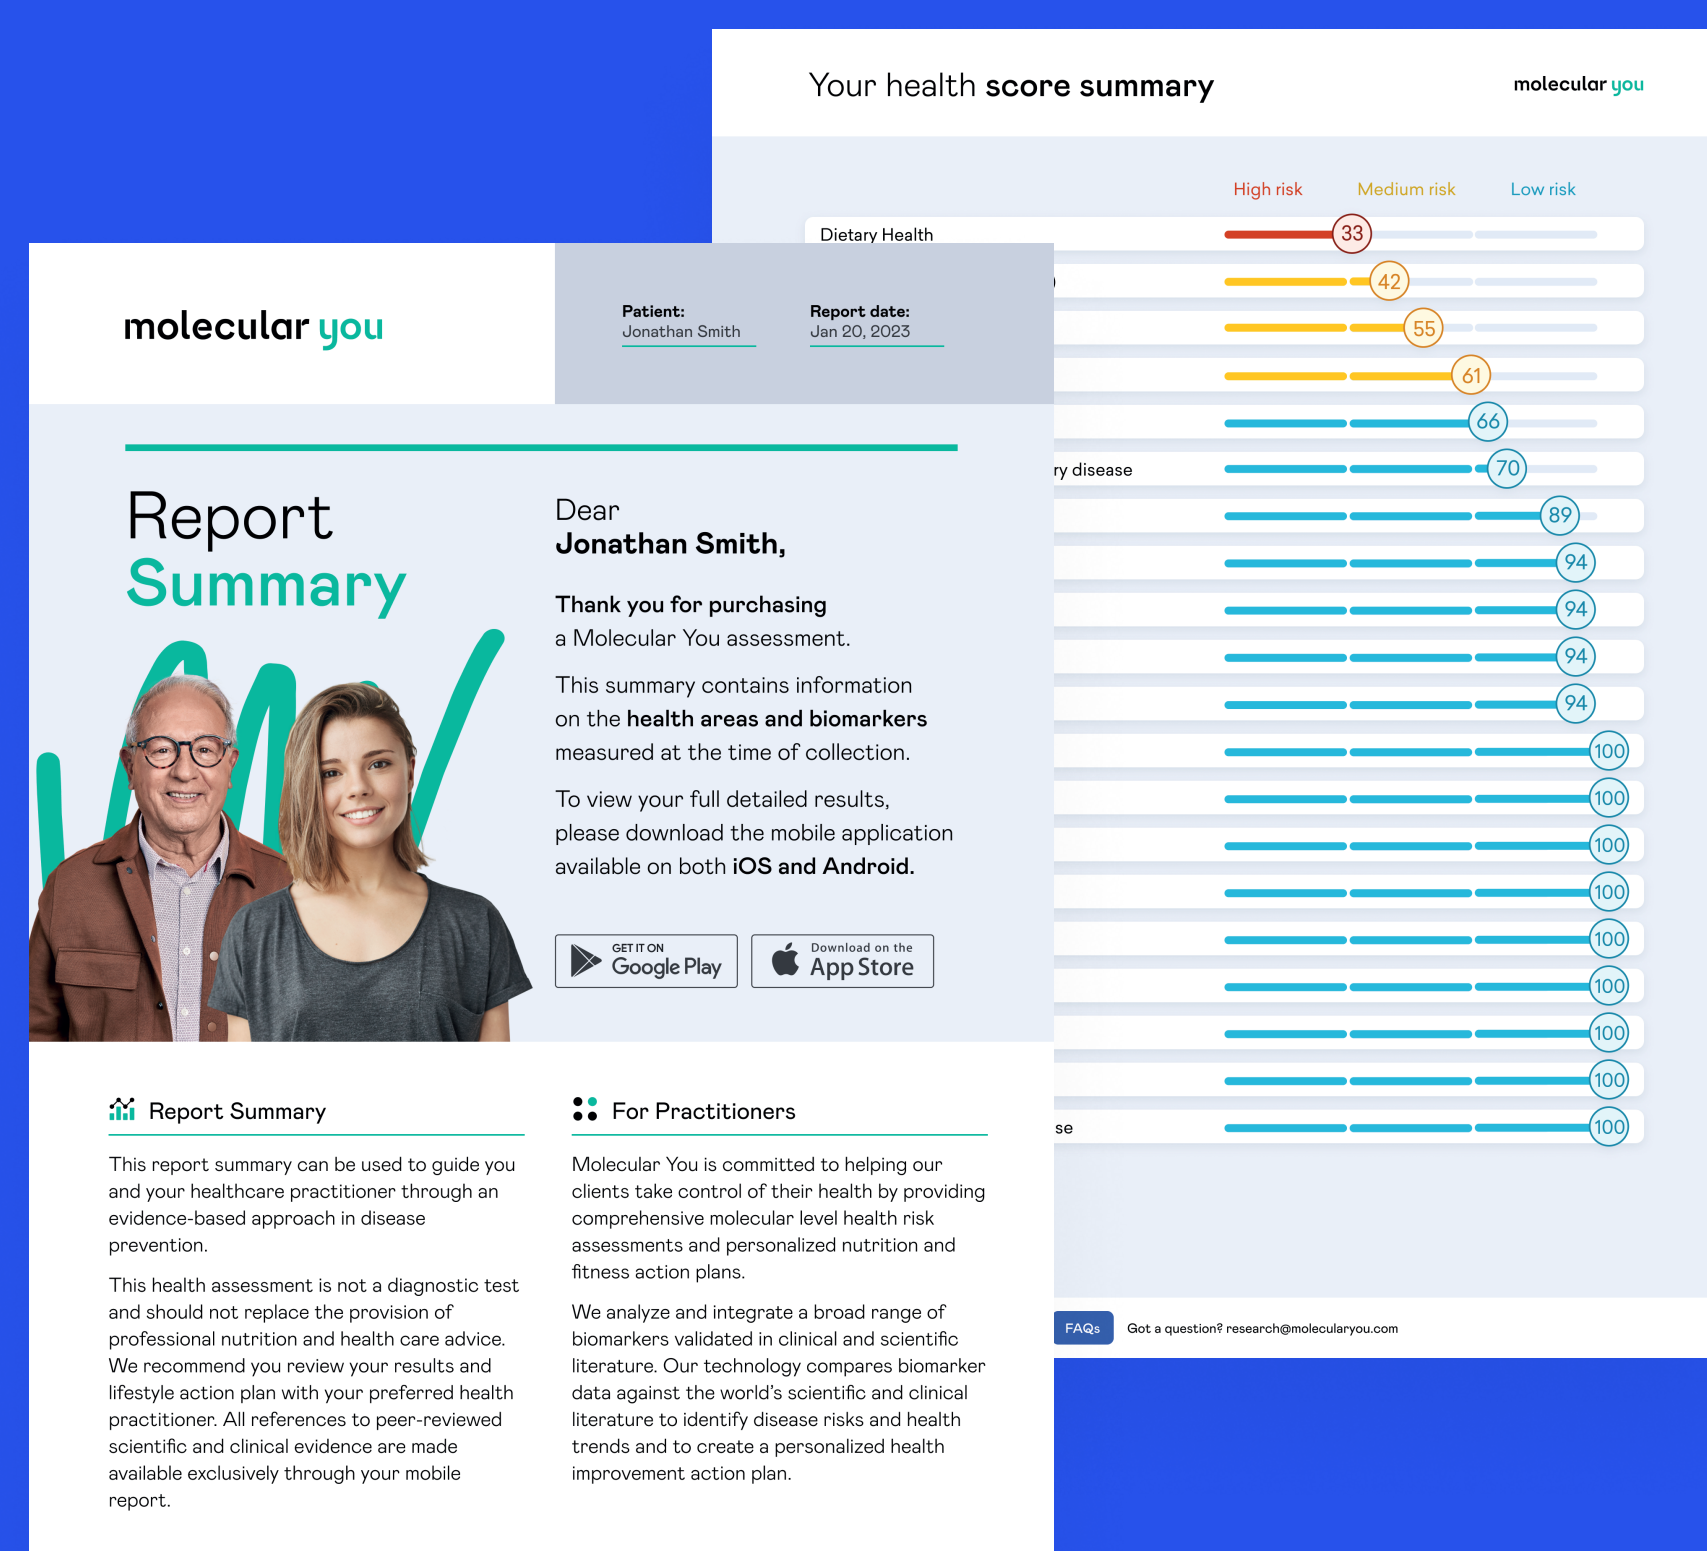

Get the most **comprehensive, preventive** test that helps you achieve your **healthy longevity** goals.

Ask your healthcare provider about ordering a Molecular You test.

Optimize your health at a molecular level

Molecular You accurately measures over 250 biomarkers from a single blood sample.

Your results reflect how well your body is functioning in certain health areas and allow your healthcare provider to give more precise, personalized recommendations to help you stay on track for a long, healthy life.

Types of health scores delivered with a Molecular You test.

Based on validated reference ranges from the world's leading scientific literature, your test results evaluate your risk within:

- Type 2 diabetes
- Pre-diabetes
- Atherosclerosis
- Cardiovascular disease
- Heart attack
- Hypertension
- Alzheimer's disease
- Depression
- Gout
- Rheumatoid arthritis
- Chronic obstructive pulmonary disease
- Inflammatory bowel disease
- Polycystic ovarian syndrome
- Non-alcoholic fatty liver disease
- Liver disease
- Inflammation: Acute inflammation
- Inflammation: Chronic inflammation
- Inflammation: General
- Inflammation:
- Vascular inflammation
- Immune health: Overactive
- Immune health: Underactive
- Dietary health
- Coagulation: Blood clotting
- Coagulation: Blood thinning
- Cognitive health
- Kidney health
- Liver health

How it works

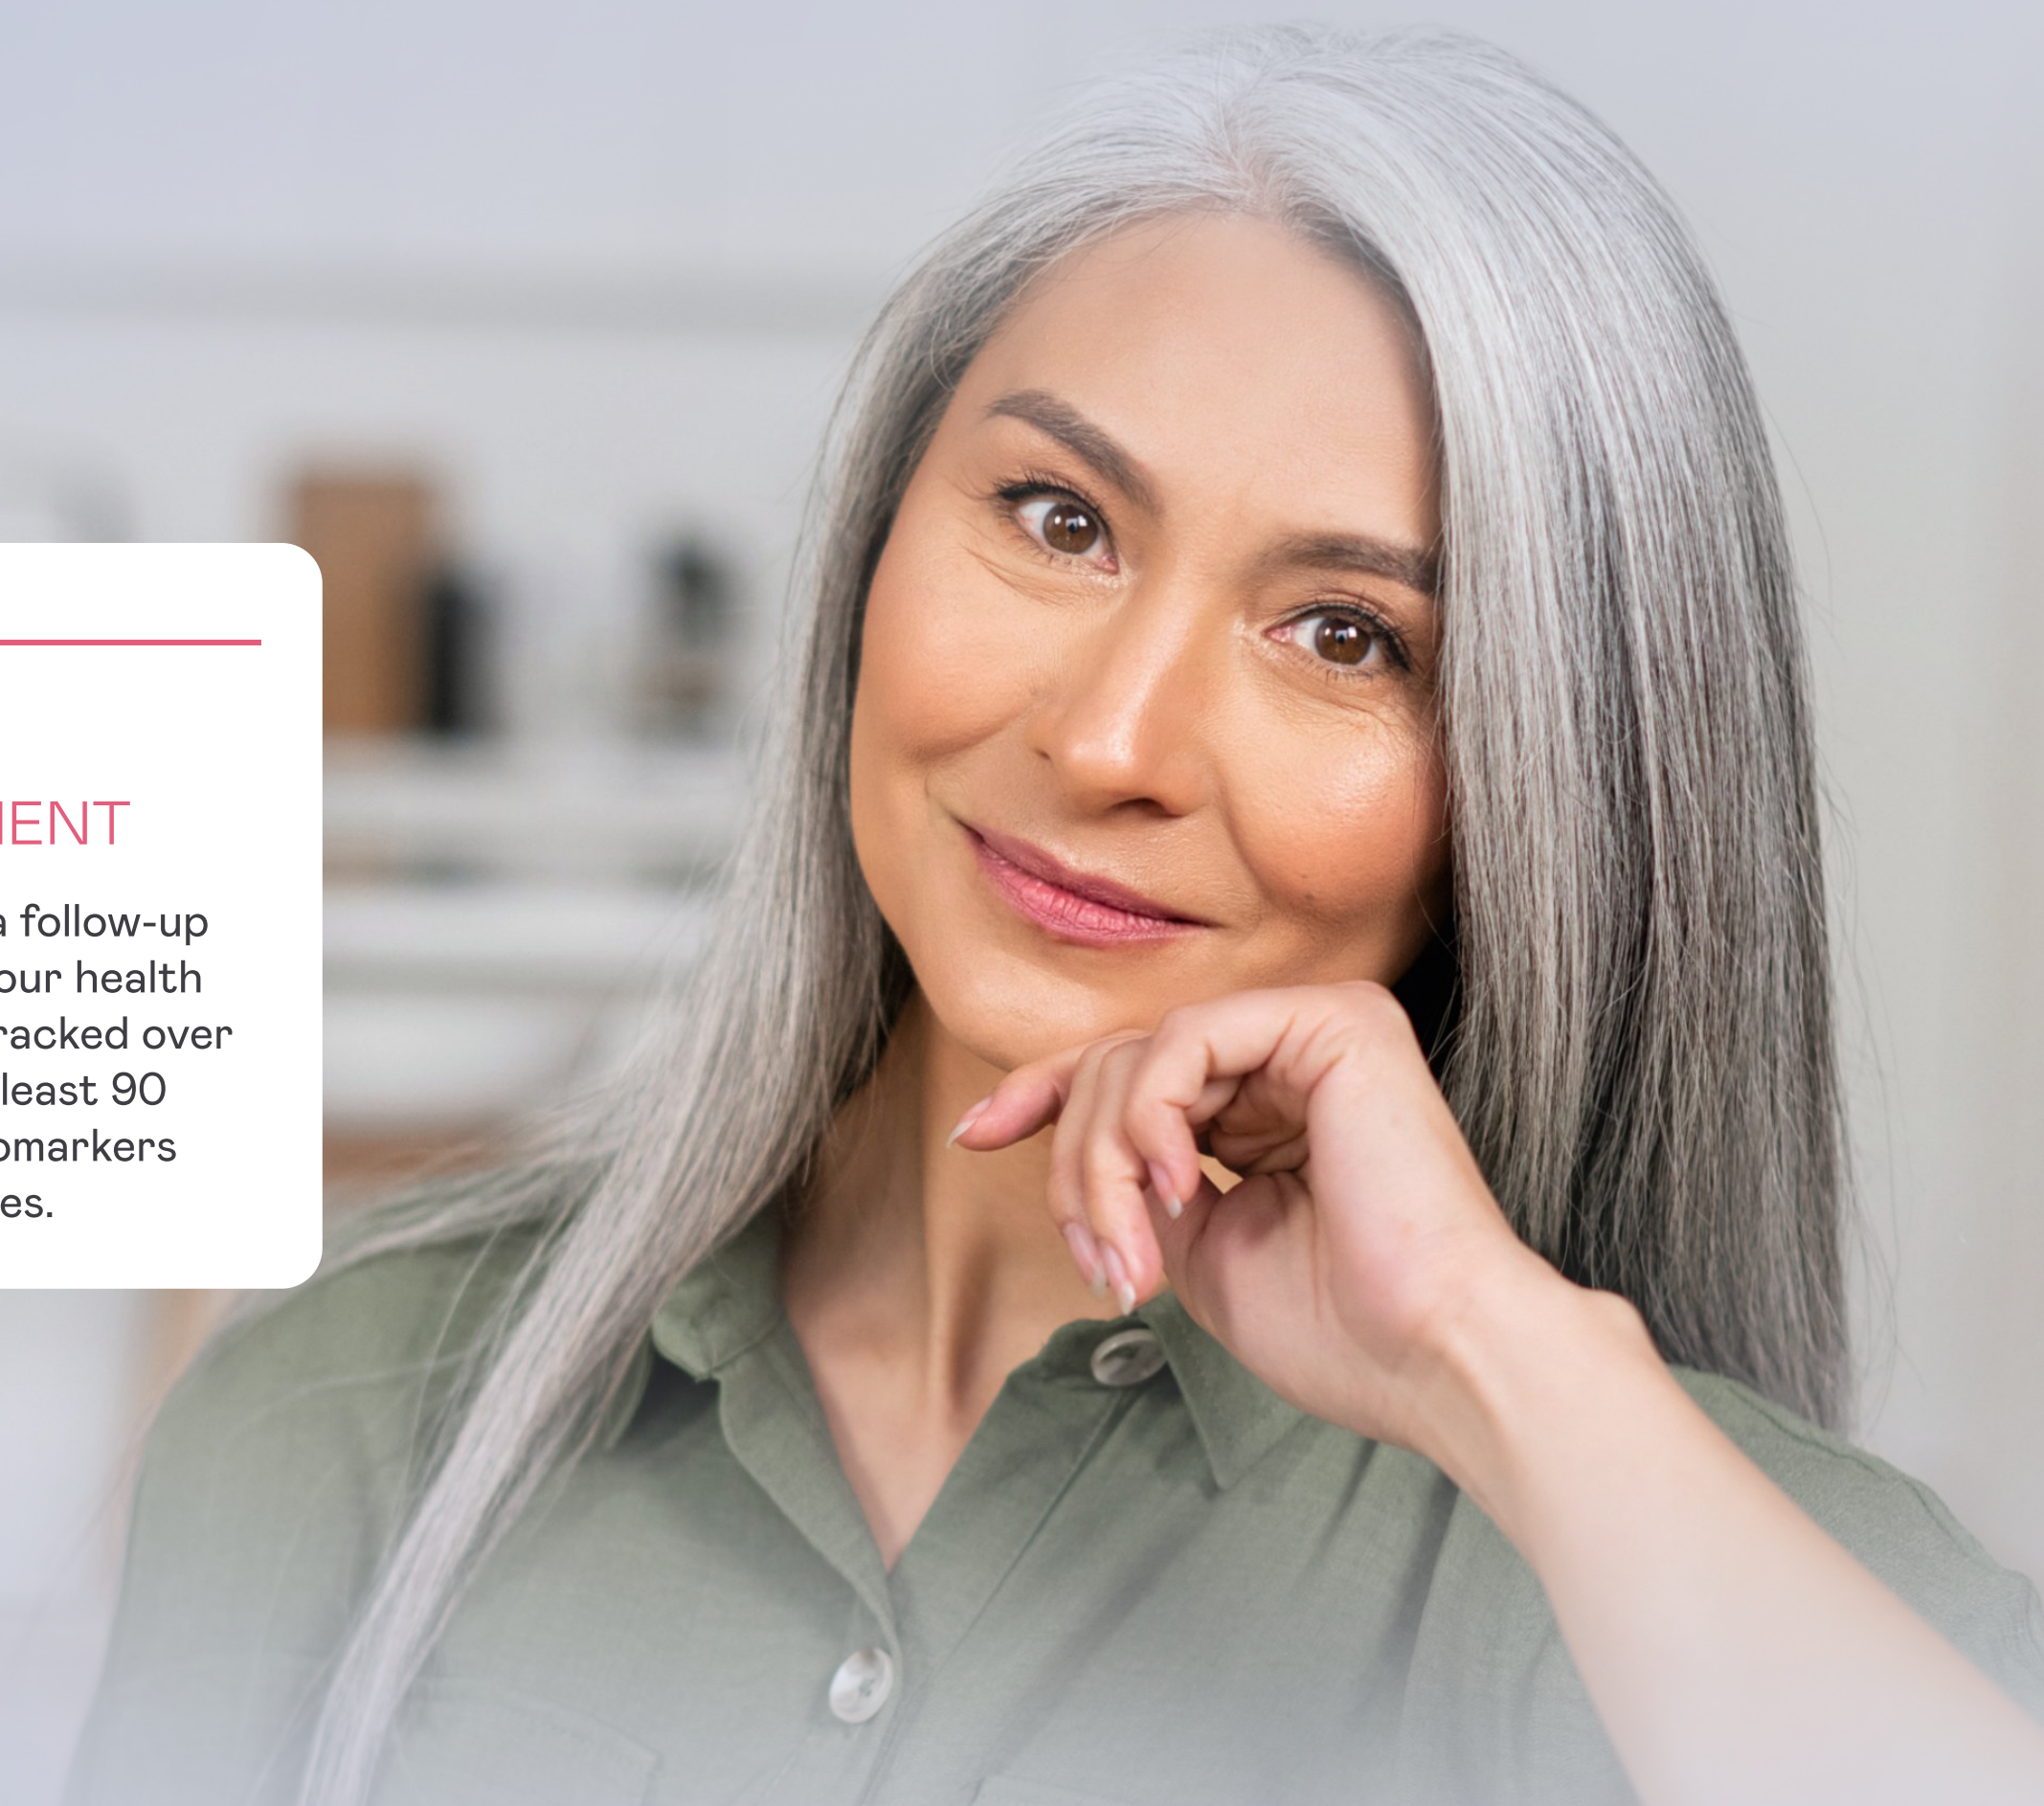

- 1 ORDER THE TEST**

You'll book a blood draw at your clinic. You'll need to fast for at least 8 hours prior and just a small amount of blood is taken.
- 2 REVIEW YOUR RESULTS**

Your healthcare provider will review your results with you and identify opportunities for improvement based on your unique report.
- 3 SEE THE IMPROVEMENT**

When you take a follow-up test, you'll see your health improvements tracked over time. It takes at least 90 days for your biomarkers to reflect changes.

Got a question? support@molecularyou.com

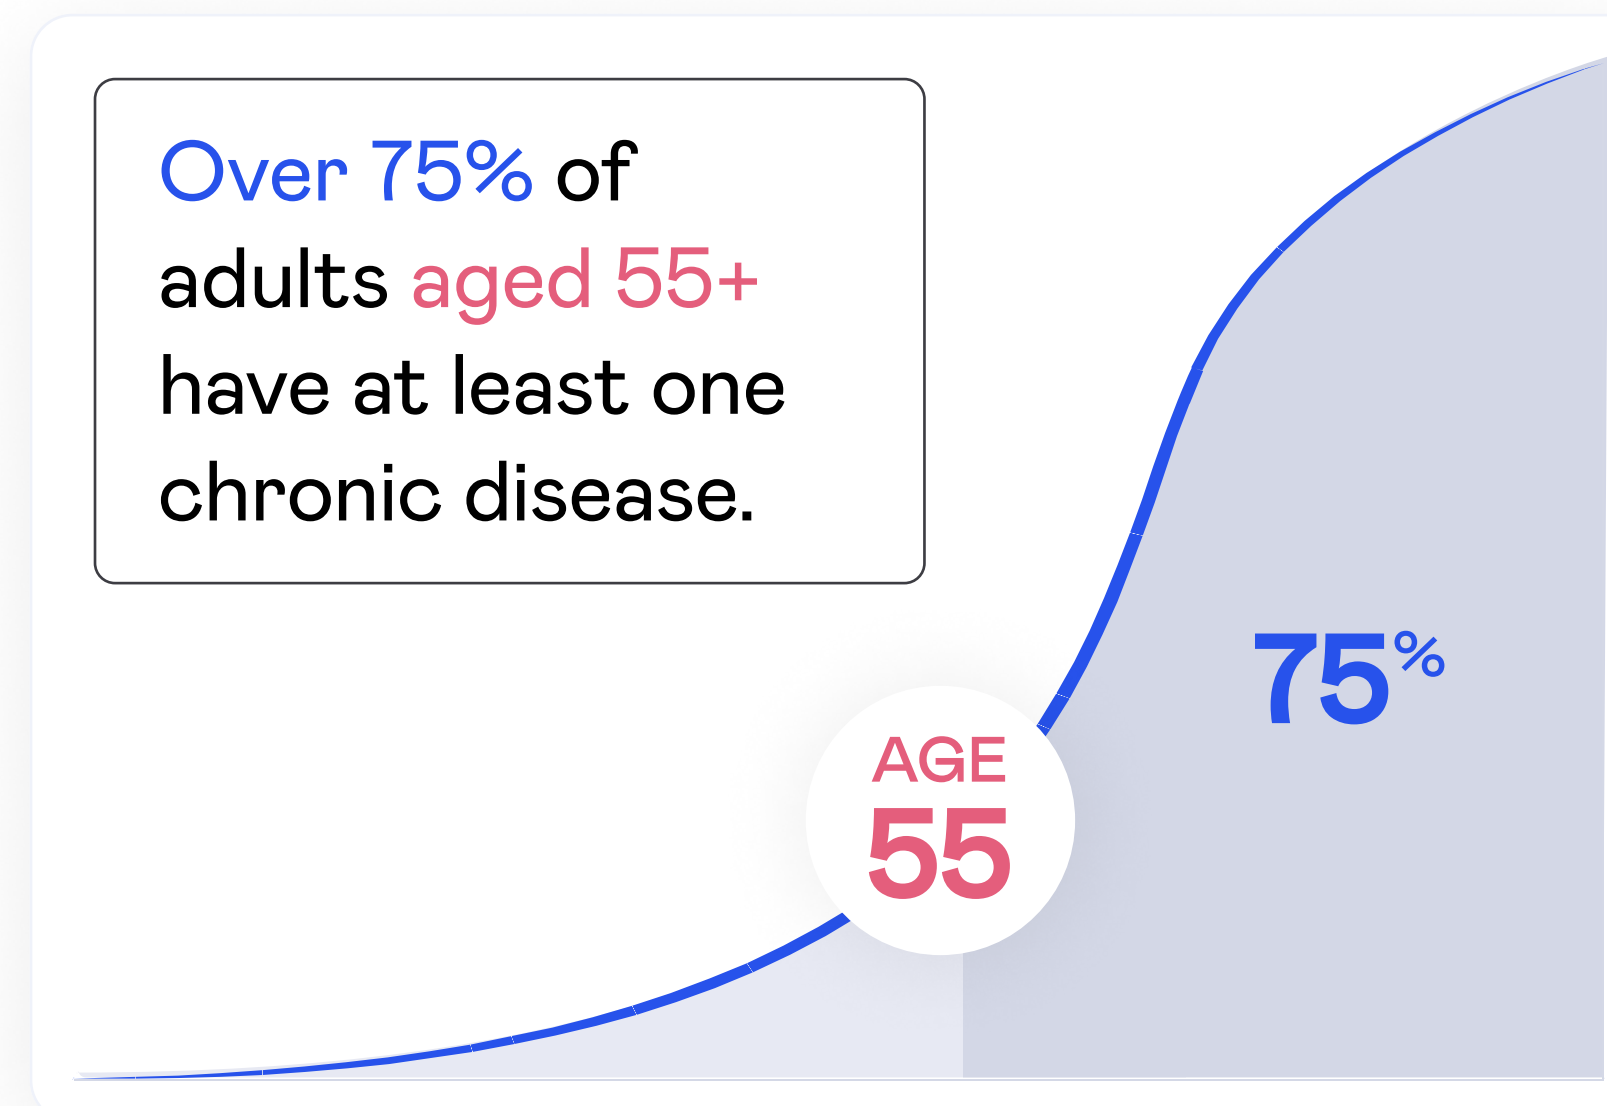

Who is Molecular You for?

Recommended for adults with concerns about elevated chronic disease risk.

People without symptoms can take the test.

Your healthcare provider can help determine if the test is right for you.

What people say

"Great customer service, helpful health insights, and an easy to use web interface. The amount of things they analyze to determine your health profile is amazing."

Charles L.
9 Feb

"The information I was given in regards to my health was beyond my expectations. The staff were always polite and helpful. And the website was easy to navigate. I have nothing but good things to say about Molecular You and will continue recommending it to people I know."

Christal Tetreault
